

REAR FRAME SECTIONS

Our rear frame sections are built and welded here at the shop so all critical alignment is accurate and ready for all components. Made from 2" x 3" rectangle or 1-5/8" round mild steel tubing and fully bracketed out for 4-Link or Ladder Bars and shocks. Built to be universal and will work with any body style, this is a lower cost method for back-halving your car. All of our components are a direct bolt on for ease of finishing with your project at home yourself.

ROLL BAR PADDING

Count on VPRC to keep you safe and comfortable on your ride with our roll bar padding. Special closed cell foam progressively absorbs shock without absorbing moisture and is flame retardant. SFI-Legal padding is very flexible and comes in 1/2", 3/4", and 1" thicknesses.

- 176-01 Jaz Roll Bar Padding, 3 ft \$15.28
- 176-02 Jaz 1/2" SFI Roll Bar Padding, 3 ft \$38.50

176-01 black, silver, red, yellow, orange or blue

176-02 blue, black or red

MAIN CROSS MEMBER

This could be the best engineered Cross Member on the market! With a built-in driveshaft loop joined with 2" x 3" x .083 tubing, this Cross Member goes from rocker to rocker to tie your car together from side to side. It also gives a great place to land main hoop and frame connectors. The rearward side can be placed so you can mount ladder bar front brackets to it.

- 29-02K Front Ladder Bar Cross Member w/ Mounts \$189.75
- 29-03K Front Ladder Bar Mounts w/ Hardware \$63.25
- VAN-155A Round Tube Dropped Cross Member, Chrome Moly \$60.80

29-02K

VAN-155A

FRONT END KITS

When it comes adding a front frame and suspension to your race car, we offer A-frame or Strange strut front frame units, jig welded or unwelded. Both are constructed from 2" x 3" mild steel tubing or 1-5/8" round mild steel tubing and come with upper roll cage supports. This is an effective way to lose some weight from your race car and also let you lower the front end for better aerodynamics.

- 55-001 Front Jig Welded Frame Unit \$575.00
- 55-002K Front Frame Unit, Unwelded \$316.25
- 55-017K Front Sub-Frame Unwelded Kit \$546.25
- 55-018K Unwelded RH & LH Upper Control Arm Kit \$454.25
- 55-019K Unwelded RH & LH Lower Control Arm Kit \$431.25

WISHBONE

Our Wishbone is to be used with 4-Link suspension to hold the rear centered. Our Wishbone allows vertical free movement and easy third member removal. Constructed from 1" x .058 and 7/8" x .058 chrome moly tubing with 1/2" and 5/8" heim ends. Comes complete with all hardware.

- 71-04K Wishbone Kit, Welded \$281.75
- 71-10K Wishbone Kit, Unwelded \$166.75

SUSPENSION LIMITERS

We offer front end suspension limiters for A-frame or strut configurations. Adjustable and easy to install.

- 33-17K A-Arm Limiters \$46.00
- 33-18K Strut Limiters \$74.75

LADDER BARS

VPRC offers custom length Ladder Bars for different wheelbase and engine set back for the best weight-transfer gain. We also offer the commonly used 32" and 34" Ladder Bars. All of our Ladder Bars are fully jigged and welded 1" OD x .156 DOM tubing, directly threaded. Complete with CNC laser-cut housing brackets, 4 solid 3/4" x 5/8" rod ends, and 2-3/4" x 3/4" heim ends in either chrome moly or mild steel 3-piece heims. Ladder Bars are sold in pairs and come complete with all hardware. Available in Adjustable or Standard.

26-03K	32" Standard Ladder Bars w/ Mild Steel Heim Ends	\$261.05
26-05K	34" Standard Ladder Bars w/ Mild Steel Heim Ends	\$281.75

TRANSMISSION MOUNTS

We offers two styles of Universal Transmission Cross Members. One is for stock chassis application, good for Pro Street and Bracket cars alike. The second is for full-tube chassis Doorslammers.

- 40-01K Universal Mild Steel Transmission Cross Member w/ Mount \$57.50
- 40-08K Universal Chrome Moly Transmission Cross Member w/ Mount \$74.75
- 40-02K Full Tube Transmission Cross Member w/ Mount \$63.25
- 40-05 Transmission Mount for Powerglide Transmission \$10.48
- 40-06 Transmission Mount for Turbo 400 Transmission \$8.61
- 40-07K Bolt Kit for Transmission Mount \$4.03

40-01K

CROSS LINKS

Our Cross Links keep the rear end centered in the chassis without side-to-side movement like the outdated Panhard Bar. Utilizing 7/8" x .058 chrome moly tubing and 1/2" 3-piece heim ends. Complete with all hardware.

- 71-03AK Cross Link Kit for 4-Link \$86.25
- 71-03BK Cross Link Kit for Ladder Bar \$63.25
- 71-05K Panhard Bar w/ Hardware \$68.25
