

FUNNY CARS

Our Top Alcohol Funny Car is custom-built to SFI specifications. If you want the fastest, safest and best built Funny Car, VPRC's Top Alcohol Funny Car is the only way to go.

ROADSTERS

VPRC offers Kick-Ass Roadsters! These cars are capable of competition in classes ranging from Bracket Racing to Top Sportsman. Our Roadsters are constructed of 4130 round tubing and feature Pro 4-Link systems with choice of strut or axle/torsion front suspension. This is the state-of-the-art open cockpit race car for the serious race car driver who wants to step up to perfection! Many body styles to choose from, call with your inquiry.

DRAGSTERS

VPRC builds Dragsters for Bracket, Top Alcohol and Top Fuel. Hardtail and 4-Link designs are all built within SFI specifications to ensure superior quality throughout. Every VPRC Dragster is built on a surface jig and fully tig welded.

Due to the unlimited options available when building these types of race cars, please contact us for an accurate price quote based on your choices.

ALTEREDS

All VPRC Alteredds are designed to work for the specific driver-engine-transmission combo. Jig assembled and fully tig welded to conform to SFI specifications. VPRC's Alteredds are great for E.T. Bracket Racing on up to Competition Eliminator. With TRIPOD front end and solid mount 9" rear end, this is the lowest priced race car we offer.

NOSTALGIA DRAGSTERS

If it's a Nostalgia Dragster you're in need of, we build state-of-the-art, handcrafted dragsters meeting all SFI specifications and requirements with superior quality throughout.
